Act fast! Places limited

Wednesday 15th
September 2010
University of Bradford

This one day interactive seminar provides an essential update for professionals and practitioners involved in land development in the UK targeting key issues, future knowledge and skills to become a more effective land professional. Featuring a number of leading specialists and practitioners, a combination of presentation and discussion will overview the current situation and look into the future of land development and management. Can you afford not to attend ?
